
DEEPAK NARAYAN

- Trivandrum, Kerala ♦ +919074994192 ♦ depknarayn@gmail.com ♦ www.linkedin.com/in/deepaknarayan-in

PROFESSIONAL SUMMARY

- Experienced in handling requirements gathering from clients, conversion to technical features, high level design, low level design, work assignments and planning, development of planned features and their deployment.
- Focus on developing and engineering state of the art robust applications while working with stakeholders towards their goals with an open mind to feedbacks.
- Strong in optimizing workflows and existing applications or frameworks, once enough experience is gained on it.
- Strong emphasis on team growth along with personal growth for each team member, all the while acting as a collaborator and problem solver.

SKILLS

- | | |
|------------------------|---|
| • Python | • C++ |
| • Data Structures | • Machine Learning |
| • Product development | • Project management |
| • Java | • Mobile Robotics and ROS |
| • Parallel Programming | • JMP |
| • Distributed Systems | • Training, mentoring and team building |

EDUCATION

Master of Science: Computer Science, 12/2020

University of New Hampshire - Durham, New Hampshire

GPA: 3.94/4.0

Bachelor of Technology: Applied Electronics and Instrumentation, 05/2010

College of Engineering Thiruvananthapuram - Trivandrum, Kerala, India

GPA: 7.7

ISC Board: Mathematics, 05/2006

Loyola School - Trivandrum, Kerala, India

Percentage: 91

ICSE Board: Mathematics, 05/2004

WORK EXPERIENCE

Data Engineering Manager, 07/2021 - 11/2025

Yuhiro Technologies – Trivandrum, Kerala

- Hands on experience on building applications using C++ and Python, with the team developing, maintaining and deploying 7+ products / projects (data collection, data analytics, processing, storage, visualization and validation) for the client in C++ and python.
- Built / co-built architectures and functionality of applications for data processing with exposure to protocols such as MQTT, gRPC and REST.
- Worked with Deep learning neural networks (keras library) to bring in AI powered predictions for applications.
- Worked with AI tools for development ensuring more robust development cycles.
- Worked with several python libraries such as pandas, seaborn, numpy, matplotlib, keras, joblib and with frameworks such as Dash and ROS2.
- Worked with several C++ libraries such as OPCUa, MQTTCpp, gRPC.
- Development done on Windows and Debian 10/11 systems (basic knowledge on Debian systems).
- Exposure to Docker containers and its deployment as 'docker in docker' using docker compose.
- Worked on Qt4/5 along with web assembly for web and browser support.
- Worked with several databases such as Postgres, crate, MySQL.
- Feature, issues and backlogs were tracked using gitlab, and CI/CD pipelines were maintained with automated testcases.
- Performed requirements gathering from client, converted them to gitlab tickets for tracking, performed sprint planning and execution, conducted design discussions and overlooked the implementation process.
- Coordinated team members and client team from Europe without issues.
- Quick real time issue resolution done remotely for customer machines to ensure clean and robust deployment.
- Strong focus on not creating dependencies within team, and in being independently able to solve problems and to come up with solutions.
- Mentored junior team members and ensured them to be capable of working independently with a focus on upskilling.

Marine Robotics Intern, 06/2020 - 08/2020

CCOM/NOAA-UNH Center – Durham, New Hampshire

- Research on Image Processing and Computer Vision for Autonomous Surface Vehicle 'Ben'.
- Development of video feeds in C++ with ROS framework and openCV library.

Software Developer (Part-Time), 01/2020 - 05/2020

CCOM/NOAA-UNH Center – Durham, New Hampshire

- Research on Image Processing and Computer Vision for Autonomous Surface Vehicle 'Ben'.
- Development in C++, ROS framework and openCV library.

Project Lead (Quality Assurance), 02/2014 - 01/2019

Oracle India Private Limited – Trivandrum, Kerala

- CRM on Demand (Oracle's CRM Suite):
 - Project Lead and QA engineer at Oracle in CRM On Demand
 - UI Automation tests development using Core Java and Selenium.
 - Responsible for coordinating, developing and maintaining regression automation scripts.
 - Developed an automation Suite for REST Services Testing using Oracle Apex, Java and webservices which ensured quick and accurate executions of the REST Suite. Manual Execution Time reduced from 1 day to 1.5 hours of automated execution.
 - Responsible for authoring of test cases and test plan creation.
- CRMOD to Oracle Sales Cloud Migration Tool:
 - Developed an Oracle Apex application for Bug tracking and Migration progress tracking.
 - Responsible for the quality assurance of the Migration Tool which migrated setups, data and customizations from CRM On Demand to Oracle Sales Cloud.
 - Ensured high quality and timely delivery which helped mark the Migration tool as an Oracle Product. (<https://www.oracle.com/assets/crm-ondemand-sales-cld-migration-2872587.pdf>)
 - Maintained the Tool across application(s) releases, selenium driver releases and browser releases.
 - Presented the Migration Tool via web conferences to Partners and other consultancy teams across Japan, APAC and the United States.

Programmer, 10/2012 - 12/2013

Anjana Software Solutions Pvt Ltd – Chennai, Tamil Nadu

- Automation test development using Java, vbscript and Extratheme Attachmate.
 - This initiative was taken by self and approved by management, received appreciation for the extra effort taken.
 - Laid the foundation for further automation test development using other tools such as Telerik Test Studio.
- Utilities development across business lines of the company.
- Automation of Written Assessment questionnaire creation for new recruitment using vbscript.
- Automation brought in to find list of active Users online after regular company hours using vbscript.

ACHIEVEMENTS

- Conducted hands-on workshop on Machine Learning at Christ College of Engineering, Thrissur (August 2023):
 - Conducted for around 60 students
 - Details: <https://www.linkedin.com/feed/update/urn:li:activity:7101618104543186944/>
- Conducted hands-on workshop (online) on AI and Data Science for Healthcare, at Atharva College of Engineering, Mumbai (December 2023):
 - Conducted two days of hands-on sessions on the following topics:
 - Linear Regression and Logistic Regression Modelling
 - AI/ML for disease progression
 - Decision Trees and Ensemble Modelling Details
 - Details: <https://www.linkedin.com/feed/update/urn:li:activity:7148363310629797888/>
- First in technical paper presentation at TECHWARZ'10.
- Football Team won the Interhouse High School Soccer Tournament.

CERTIFICATIONS

- 'Neural Networks and Deep Learning' certificate awarded in Coursera in 2021.
- 'Structuring Machine Learning Projects' certificate awarded in Coursera in 2021.
- 'Competent Leadership' certification awarded in Toastmasters International in 2018.

LEADERSHIP ACTIVITIES

- President (Orators Trivandrum, Toastmasters), Trivandrum, Kerala, June 2018 - January 2019
 - Acted as a charter member of the club.
 - Mentored club members on improving their confidence levels, public speaking skills and leadership skills.
 - Planned and coordinated biweekly Toastmasters sessions.
- Treasurer (Fun@Work, Oracle), Trivandrum, Kerala, July 2016 - January 2017
 - Maintained all finances of the corporate club with credibility and coordinated with vendors and sponsors during events.
 - Role involved effort and risk since it dealt directly with finances.

LANGUAGES

English, Malayalam, Tamil

PERSONAL INFORMATION

- Address : F32, Udayagiri Compound, Cheruvikal, Sreekariyam, Trivandrum, Kerala, 695017
- Nationality : India
- Hobbies : Reading
